Term: Fall 2020

Dear Jean-Luc,

On behalf of the entire UHV community, congratulations on being admitted to the University of Houston-Victoria. Now, more than ever before, UHV is experiencing the largest growth in our 40-plus year history. We're adding new programs; expanding our footprint with state-of-the-art facilities; and implementing innovative, student-centered programming, which is specifically designed to prepare our graduates to be competitive in a global 21st-century job market. The knowledge and experiences you will gain during your studies at UHV will be irreplaceable. As you embark on this next chapter of your academic career, you will discover just how capable you are. This acceptance letter is more than a congratulatory message. It represents a personal commitment from us to you.

Together, we share the same goal in helping you earn a college degree. The road is not going to be easy. You will be challenged. The thought of quitting might even cross your mind. However, it is our belief that one's success is never achieved without the contribution of others. We hope you understand that you will not be taking this journey alone.

UHV is your university, and we are committed to our partnership with *you*. Remember the word *partnership*. Come with an open mind and a sense of discipline to succeed, and we'll handle the rest.

Once again, congratulations on reaching this next step in achieving your higher education dreams. We look forward to seeing you "Make Your Mark" at UHV. Here's to your continued success and prosperity. Welcome to UHV!

Best Wishes,

Billy Lagal, M.Ed.
Director, Admissions and Student Recruitment
